

Muhammad Waqas

Data Scientist | Machine Learning Engineer

Data Scientist specializing in Machine Learning and AI, with a focus on delivering actionable insights from data. Proven ability to translate business needs into effective data-driven solutions. Experience includes developing predictive models, building data pipelines, and creating visualizations that drive informed decision-making. Proficient in Python, SQL, Power BI, and Tableau. Portfolio highlights successful projects in EDA, predictive modeling, NLP, and data visualization. Passionate about using data to achieve business objectives.

PROJECTS EXPERIENCE

CardioPredict Machine Learning Approach

EDA and Machine Learning

- Developed and deployed a machine learning model to predict disease severity.
- Cleaned and preprocessed complex, irregular data, explored hidden trends, and evaluated 8 classification models, ultimately selecting AdaBoostClassifier for optimal performance.
- Deployed the model via a Flask API, creating a user-friendly web interface for accessibility.

Insights from MILLiONS: Google Play Store EDA

Data Analytics & Visualization

- Cleaned and analyzed a large dataset comprising over 2.3 million mobile app records. Identified key patterns and trends related to app ratings, downloads, and user engagement.
- Created insightful visualizations using Plotly, Matplotlib, and Seaborn to provide a comprehensive understanding of market dynamics.

Comprehensive Data Cleaning of FIFA21

Data Wrangling

Player

- Cleaned and processed Messy records, improving data quality by 90%.
- Applied data wrangling techniques to remove inconsistencies and prepare the dataset for modeling.
- Cleaned Inconsistencies of strings of data.

Music Store Analysis

SQL & Data Analytics

- Conducted SQL queries on a relational database to analyze customer behavior & sales trends.
- Designed optimized SQL queries for better performance and decision-making insights.

TECHNICAL SKILLS

Programming & Tools

- Python (Pandas, NumPy, Scikit-Learn, TensorFlow, PyTorch etc.)
- SQL (PostgreSQL, SQLite, MySQL)
- Power BI, Tableau, Excel

Machine Learning & AI

- Supervised & Unsupervised Learning
- Feature Engineering & Model Optimization
- NLP (Natural Language Processing)

SOFT SKILLS

- Problem-Solving & Critical Thinking
- Communication & Storytelling
- Collaboration & Teamwork
- Adaptability & Continuous Learning

EDUCATION

Bachelor of Science in Computer Science

MNSUAM

2022-26

CERTIFICATIONS

Six months of AI and Data Science Mentorship Program

Institute: Codanics

Instructor: Dr. Aammar Tufail

Excel Skills Job Simulation

Institute: JPMorgan Chase & Co

SQL: From Zero to Hero

Institute: Udemy

PROFESSIONAL ASSOCIATIONS

Actively participating in discussions, competitions, and open-source contributions.
